PRINCIPAL STREET HIGH INCOME MUNICIPAL FUND

Dear Investor,

We are pleased to present you with our Principal Street High Income Municipal Fund (share classes GSTAX/GSTEX) Annual shareholder report for the period ended August 31, 2020. The Fund had performed well since its inception on September 15, 2017, and the first half of this period was no exception, as the Fund achieved its goals of generating a high level of federally tax-free income and a solid total return amidst a very favorable market for both the asset class and the Fund. However, with the onset of COVID in March, the asset class and the Fund experienced a very difficult environment that has adversely impacted performance. Indeed, the period surrounding the virus has presented a market every bit as challenging as the 2008 Financial Crisis, and in some ways more so, due to lingering effects of the pandemic and the uncertainty that it has presented.

Despite the difficulties resulting from the coronavirus, there are certainly bright spots the Fund has maintained a high distribution rate of tax-exempt income and has continued to grow, and we believe the Fund is well-positioned for a rebound in the market. We discuss all of these below and the reasons why we are cautiously optimistic as we look to the end of 2020 and into 2021.

Performance data quoted represents past performance and does not guarantee future results. Investment returns and principal value will fluctuate, and when sold, may be worth more or less than their original cost. Performance current to the most recent month-end may be lower or higher than the performance quoted and can be obtained by calling 1-877-914-7343.

A TALE OF THREE MARKETS: PRE-COVID, THE HEART OF COVID, AND THE BEGINNINGS OF RECOVERY FROM COVID

Rewriting Some of the Rules but Believing that Our Senior-Secured, Bricks-and Mortar, Essential-Need Projects Will Carry the Day

Although it seems long ago in light of all that has transpired, the asset class and the Fund had enjoyed a long run of solid performance since the Fund's inception in 2017, riding the wave of solid value, strong credit fundamentals, a high level of tax-exempt income, and a shortage of supply being chased by very strong demand. These elements continued through February 2020.

When the first signs of COVID struck the markets in early March, fear and irrational behavior replaced credit fundamentals and a disciplined market. Indeed, the coronavirus wrought damage in many markets and asset classes, and high yield municipals were not immune. There was a severe disconnect between prices and the underlying credits. Indeed, our asset class and the Fund were particularly hard hit in March and April the dislocation was very pronounced with high yield products, the Fund included. Additionally, because the Fund focuses on project revenue debt (think stand-alone projects) with an emphasis on senior living facilities, the prices of individual bonds fell harder still as senior living facilities were lumped together with nursing homes and hospitals (in our opinion they should not be). As prices fall, performance is adversely affected. The asset class began its rebound in May, but the Fund, while showing strong signs of recovering, has lagged its peer group because of its pure high yield composition. Historically, high yield bonds have recovered more slowly than their investment-grade brethren. Navigating this market has been particularly difficult due to the unknowns that the pandemic presents. We are currently dealing with a bifurcated market that is behaving in some ways as it was pre-COVID with lower yields and robust prices, but in other ways has orphaned many credits, leaving them, at

PRINCIPAL STREET HIGH INCOME MUNICIPAL FUND

least momentarily, with depressed prices. These elements have disrupted, we believe temporarily, our strong performance. We are working very hard to manage through this period, even as many of the norms have changed and trading in the asset class has seen extremes that we have not witnessed previously, including 2008.

We believe in the strength and durability of the credits in the portfolio, and that they, in our view, will recover in price over time. We have been very active managers during this period, having added credits that we believe will endure the effects of the coronavirus and culling others that we do not believe will be able to survive under the current conditions. And in other cases we are working with borrowers to provide temporary relief with the belief that those projects present solid fundamentals but need some help during this period. Many of the rules are being rewritten during this period, but we believe that our emphasis on credit and the underlying value of those credits will prevail.

We also believe that the worst is over. As the Fund, and the world, begins to emerge from what we believe is the worst of the pandemic, we see positive signs. Value, inflows, resumption of rational trading, and a rebound in prices are all once again present in our market. The months that have passed have allowed us to analyze how various projects are faring as a result of the coronavirus, and we have adjusted the portfolio accordingly. So, despite the difficulties presented, we continue to believe in both the Fund and the asset class, for all of the same reasons that existed pre-COVID – federally tax-free income, diversification, value in the asset class, and a low correlation to other asset classes. These attributes, combined with our long-term investment horizon, our belief that taxes will increase, and our view of globally low yields, leads us to believe that the Fund’s relevance remains intact and that the income being generated, in our view, may be more important moving forward than even before the pandemic. We believe that with the work we have done that our portfolio is well positioned for a rebound and that high yield may well once again enjoy the position of being sought for its value and diversification.

Meaningful Assets, Solid Positioning and Growth

At the end of the period, the Fund had assets under management of about \$202 million, an increase of approximately \$46 million since our Annual letter last year. This growth has allowed us to purchase meaningful long-term positions for the portfolio that we believe represent strong value and will generate meaningful income. As the Fund continues to grow in assets, we continue to diversify the portfolio. The Fund currently is invested in about 90 positions. Focusing on project revenue bonds, the investments include, among others, senior health care facilities, charter schools, a wallboard manufacturing plant, a specialty pipe manufacturing facility, a mixed-use development, two recycling plants, and a biofuels plant. Our goal is to continue to construct a geographically and sector-diverse portfolio that has a low correlation to other asset classes. While navigating the difficult waters of the virus, our strategy and investment process remain unchanged.

Performance Has Lagged While the Distribution Yield Remained Strong

We are obviously disappointed with recent total return performance. As we noted above, the Fund had enjoyed solid performance leading into the pandemic. But the performance since COVID struck has been difficult, for the reasons discussed above. The table below outlines the performance of the Fund against its Bloomberg benchmark and Morningstar Peer Group.

Annualized Rates of Return as of August 31, 2020

	1-Year Ended August 31, 2020	1-Year Ended December 31, 2019	Fund Inception⁽¹⁾ thru August 31, 2020
Institutional Class (GSTAX) ⁽¹⁾	-6.34%	9.42%	3.63%
Investor Class (GSTEX) ⁽²⁾	-6.19%	8.88%	3.34%
Bloomberg Barclays High Yield Municipal Bond Index ⁽¹⁾	0.96%	10.68%	5.73%
Morningstar High Yield Municipal Bond Fund Category ⁽¹⁾	-0.10%	9.12%	3.93%

(1) Inception date for the Institutional Class (the Fund Inception) was September 15, 2017.

(2) Inception date for the Investor Class was March 23, 2020. Performance for the Investor Class prior to the inception of the class is based on the performance of the Institutional Class, adjusted for the higher expenses applicable to the Investor Class.

Performance reflects waivers of fee and operating expenses in effect. In the absence of such waivers, total return would be reduced. Performance data quoted represents past performance and does not guarantee future results. Investment returns and principal value will fluctuate, and when sold, may be worth more or less than their original cost. Performance current to the most recent month-end may be lower or higher than the performance quoted and can be obtained by calling 1-877-914-7343. Performance assumes the reinvestment of capital gains and income distributions. The performance does not reflect the deduction of taxes that a shareholder would pay on Fund distributions or the redemption of Fund shares.

Institutional Class Gross Expenses: 0.84%; Net Expenses: 0.75%.

Investor Class Gross Expenses: 1.34%; Net Expenses: 1.25%.

The Operating Expenses Limitation Agreement is indefinite, but cannot be terminated through at least December 29, 2020.

Institutional Class 30-Day SEC Yield (subsidized): 7.07%; SEC Yield (unsubsidized): 6.94%.

Investor Class 30-Day SEC Yield (subsidized): 6.35%; SEC Yield (unsubsidized): 6.21%.

The Fund's tax-free yield at the end of the period was 6.02% as compared to the Morningstar peer group average of 3.49%.

Despite the difficulties of the pandemic, the Fund has maintained an attractive and consistent distribution yield (see table below), fulfilling its primary investment objective. Indeed, the 6.02% tax-free yield, which translates to a 9.56% taxable-equivalent yield, is significant in the current yield environment, and we believe it can remain attractive on both an absolute and relative basis going forward. As we look around the fixed income universe, including the corporate high yield market, we continue to believe that our asset class represents some of the best value available in the fixed income universe based upon a risk/reward basis, even in light of the pandemic.

Navigating in the Midst of Numerous Macro-Economic Events

In its relatively short life-to-date, the Fund has experienced more than its fair share of events, ranging from wild swings in the equity markets, an historic tax reform bill, an increase and then decrease in short-term rates, a turnover in the Federal Reserve (the “Fed”) ranks, nuclear threats, Washington scandals, and the continuing imbroglio that is Washington politics – and now COVID. All of this in three short years. At this point last year, our position was that throughout all of this potential turmoil, the tax-exempt market and the Fund had remained remarkably stable and resilient, a testament to the value in the asset class and the low correlation to other asset classes. In the midst of the coronavirus, however, we are forced to modify our statement – we certainly continue to believe in the Fund and the asset class, but the impact of COVID has had an undeniable adverse impact on performance. However, the continuing shortage of new issue supply and strong demand suggests the possibility of higher prices.

The low correlation that our market and the projects in which we invest have historically had with other asset classes plays a very important role in achieving consistent returns and may help to immunize the Fund from world or political events. For example, a private pay assisted living facility in Florida is typically not influenced by global trade policy, immigration policy, or tax policy. The operations generally continue day in and day out, regardless of what Washington is or is not doing, whether the Fed is raising or lowering short-term rates, or the gyrations that the equity markets may experience. Our projects generally are tangible bricks-and-mortar projects that have an economic life of their own and continue to operate regardless of other events.

Our Outlook for Remainder of 2020 and 2021 is Cautiously Optimistic

The last six month period has presented a market every bit as challenging as the 2008 Financial Crisis, and in some ways more so, due to lingering effects of the coronavirus and the uncertainty that it has presented. We have worked hard to navigate these difficult market conditions, however, and maintain a cautiously optimistic outlook for the remainder of 2020 and into 2021.

In our view, the yield environment will remain very low moving forward due to the dim prospects for significant GDP growth and that taxes will increase due to the debt burdens assumed by states and municipalities. Investors’ search for yield and the long-term supply/demand imbalance that is present in our market should once again help drive prices higher in our asset class and in the Fund. To that end, we believe that the high rate of tax-exempt income generated by the Fund, which we believe will continue, is attractive and made more so if federal income tax rates increase.

We believe the Fund is well-positioned and are confident in our credit selection and portfolio construction. The coronavirus has wrought damage on many sectors, including some of those in the Fund. However, with our

PRINCIPAL STREET HIGH INCOME MUNICIPAL FUND

emphasis on senior-secured, bricks-and-mortar, essential-need projects we believe that our credits have very strong underlying value. Additionally, we believe that the damage is largely temporary. We have taken steps to cull the weaker credits from the portfolio and believe that the remaining credits represent solid value, even in the cases where the prices may be depressed, and that their individual recovery and that of the asset class as a whole is underway. As a result of the coronavirus, the Fund now has an average dollar price that is materially lower than pre-COVID, and we believe that these bond prices should increase over time as investors return to the asset class.

Overall, we continue to believe that our asset class holds some of the best potential value – income and capital appreciation – of any fixed income asset class.

The Fund is an integral part of our practice, and we thank you for your trust in us. Principal Street's four cornerstones – value, proprietary credit research, transparency, and accessibility – remain firmly in place as the Fund has continued to grow. We appreciate the opportunity to serve your investment needs today and over the long-term.

Sincerely,

Timothy Pynchon, CFA

EXPENSE EXAMPLE (UNAUDITED) AUGUST 31, 2020

As a shareholder of the Fund, you incur two types of costs: (1) transaction costs, including brokerage commissions on purchases and sales of Fund shares, and (2) ongoing costs, including management fees, distribution and/or service (12b-1) fees, interest expense, and other Fund expenses. This Example is intended to help you understand your ongoing costs (in dollars) of investing in the Fund and to compare these costs with the ongoing costs of investing in other mutual funds. The Example is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period (March 1, 2020 – August 31, 2020).

ACTUAL EXPENSES

For each class, the first line of the table provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line under the heading entitled “Expenses Paid During Period” to estimate the expenses you paid on your account during this period.

HYPOTHETICAL EXAMPLE FOR COMPARISON PURPOSES

For each class, the second line of the table below provides information about hypothetical account values and hypothetical expenses based on the Fund’s actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund’s actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds. Please note that the expenses shown in the table are meant to highlight your ongoing costs only. Therefore, the second line of the table is useful in comparing ongoing costs only and will not help you determine the relative total costs of owning different funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs. Therefore, the second line of the table for each class is useful in comparing ongoing costs only and will not help you determine the relative total costs of owning different funds. In addition, if transactional costs were included, your costs may have been higher.

Institutional Hypothetical ⁽⁴⁾ (5% return before expenses)	\$1,000.00	\$1,021.37	\$3.81

⁽¹⁾ Expenses for the Institutional Class are equal to the annualized expense ratio for the most recent six-month period of 0.75%, multiplied by the average account value over the period, multiplied by 184/366 to reflect the one-half year period.

⁽²⁾ Based on the actual Institutional Class return for the six-month period ended August 31, 2020 of -9.90%.

⁽³⁾ Excluding interest expense, the actual expenses would be \$3.49.

⁽⁴⁾ Excluding interest expense, the hypothetical expenses would be \$3.71.

1. ORGANIZATION

Managed Portfolio Series (the “Trust”) was organized as a Delaware statutory trust on January 27, 2011. The Trust is registered under the Investment Company Act of 1940, as amended (the “1940 Act”), as an open-end management investment company. The Principal Street High Income Municipal Fund (the “Fund”) is a diversified series with its own investment objectives and policies within the Trust. Prior to October 15, 2019, the Fund was known as the Green Square High Income Municipal Fund. The investment objective of the Fund is to provide current income exempt from regular federal income tax. The Fund is an investment company and accordingly follows the investment company accounting and reporting guidance of the Financial Accounting Standards Board (“FASB”) Accounting Standards Codification Topic 946 Financial Services – Investment Companies. The Fund currently offers two classes of shares for purchase. The Institutional Class commenced operations on September 15, 2017, and the Investor Class commenced operations on March 23, 2020. Each class of shares has identical rights and privileges except with respect to 12b-1 fees and voting rights on matters affecting a single share class. The Investor Class shares are subject to a 0.50% Rule 12b-1 distribution and servicing fee. The Fund may issue an unlimited number of shares of beneficial interest, with no par value.

2. SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies consistently followed by the Fund in preparation of its financial statements. These policies are in conformity with generally accepted accounting principles in the United States of America (“GAAP”).

Security Valuation – All investments in securities are recorded at their estimated fair value, as described in Note 3.

Federal Income Taxes – The Fund complies with the requirements of subchapter M of the Internal Revenue Code of 1986, as amended, necessary to qualify as a regulated investment company and distributes substantially all net taxable investment income and net realized gains to shareholders in a manner which results in no tax cost to the Fund. Therefore, no federal income or excise tax provision is required. As of and during the year ended August 31, 2020, the Fund did not have any tax positions that did not meet the “more-likely-than-not” threshold of being sustained by the applicable tax authority. The Fund recognizes interest and penalties, if any, related to unrecognized tax benefits on uncertain tax positions as income tax expense in the Statement of Operations. As of and during the year ended August 31, 2020, the Fund did not incur any interest or penalties. The Fund is not subject to examination by U.S. tax authorities for tax years prior to the period ended August 31, 2018.

Security Transactions, Income, and Distributions – The Fund follows industry practice and records security transactions on the trade date. Realized gains and losses on sales of securities are calculated on the basis of identified cost. Dividend income is recorded on the ex-dividend date and interest income is recorded on an accrual basis. Withholding taxes on foreign dividends have been provided for in accordance with the Fund’s understanding of the applicable country’s tax rules and regulations. Discounts and premiums on securities purchased are amortized over the expected life of the respective securities using the constant yield method.

The Fund will declare daily and pay monthly distributions of net investment income. The Fund will also distribute net realized capital gains, if any, at least annually. Distributions to shareholders are recorded on the ex-dividend date. The treatment for financial reporting purposes of distributions made to shareholders during the year from net investment income or net realized capital gains may differ from their ultimate treatment for federal income tax purposes. These differences are caused primarily by differences in the timing of the recognition of certain components of income, expense or realized capital gain for federal income tax purposes. Where such differences

PRINCIPAL STREET HIGH INCOME MUNICIPAL FUND

NOTES TO THE FINANCIAL STATEMENTS – CONTINUED AUGUST 31, 2020

are permanent in nature, GAAP requires that they be reclassified in the components of the net assets based on their ultimate characterization for federal income tax purposes. Any such reclassifications will have no effect on net assets, results of operations or net asset values per share of the Fund. For the year ended August 31, 2020, there were no reclassifications needed.

Allocation of Expenses – Expenses associated with a specific fund in the Trust are charged to that fund. Common Trust expenses are typically allocated evenly between the funds of the Trust, or by other equitable means.

Use of Estimates – The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Accounting Standards Update (“ASU”) – In March 2017, the FASB issued ASU No. 2017-08: Premium Amortization on Purchased Callable Debt Securities, which amends the existing accounting standards to shorten the amortization period of certain purchased callable debt securities to the earliest call date. This ASU is effective for fiscal years (and any interim periods within those fiscal years) beginning after December 15, 2018. The Fund adopted the new amendment as of September 1, 2019, but it did not have a material impact on the financial statements or net assets of the Fund.

Illiquid Securities – A security may be considered illiquid if it lacks a readily available market. Securities are generally considered liquid if they can be sold or disposed of in the ordinary course of business within seven days at approximately the price at which the security is valued by the Fund. Illiquid securities may be valued under methods approved by the Board as reflecting fair value. The Fund will not hold more than 15% of the value of its net assets in illiquid securities. At August 31, 2020, the Fund had investments in illiquid securities with a total value of \$14,459,031 or 7.2% of total net assets. Information concerning illiquid securities is as follows:

Security	Par	Dates Acquired	Cost Basis
Hilltop Lodge Cooperative Corp. 12.000%, 08/01/2021	\$6,600,000	March 2020	\$6,600,000
Hilltop Lodge Cooperative Corp. 12.000%, 08/01/2022	\$7,850,000	February 2020	\$7,853,087

3. SECURITIES VALUATION

The Fund has adopted authoritative fair value accounting standards which establish an authoritative definition of fair value and set out a hierarchy for measuring fair value. These standards require additional disclosures about the various inputs and valuation techniques used to develop the measurements of fair value, a discussion of changes in valuation techniques and related inputs during the period and expanded disclosure of valuation Levels for major security types. These inputs are summarized in the three broad Levels listed below:

Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities that the Fund has the ability to access.

Level 2 – Observable inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. These inputs may include quoted prices for the identical instrument on an inactive market, prices for similar instruments, interest rates, prepayment speeds, credit risk, yield curves, default rates and similar data.

PRINCIPAL STREET HIGH INCOME MUNICIPAL FUND

NOTES TO THE FINANCIAL STATEMENTS – CONTINUED AUGUST 31, 2020

Level 3 – Unobservable inputs for the asset or liability, to the extent relevant observable inputs are not available, representing the Fund’s own assumptions about the assumptions a market participant would use in valuing the asset or liability and would be based on the best information available.

Following is a description of the valuation techniques applied to the Fund’s major categories of assets and liabilities measured at fair value on a recurring basis. The Fund’s investments are carried at fair value.

Short-Term Investments – Investments in other mutual funds, including money market funds, are valued at their net asset value per share. To the extent these securities are actively traded and valuation adjustments are not applied, they are categorized in Level 1 of the fair value hierarchy.

Fixed Income Securities – Municipal and corporate bonds are valued on the basis of valuations furnished by an independent pricing service which utilizes both dealer-supplied valuations and formula-based techniques. The pricing service may consider recently executed transactions in securities of the issuer or comparable issuer, market price quotations (where observable), bond spreads, and fundamental data relating to the issuer. Fixed income securities are categorized in the Level 2 of the fair value hierarchy.

Securities for which market quotations are not readily available, or if the closing price does not represent fair value, are valued following procedures approved by the Board. These procedures consider many factors, including the type of security, size of holding, trading volume and news events. There can be no assurance that the Fund could obtain the fair value assigned to a security if they were to sell the security at approximately the time at which the Fund determines its net asset values per share. The Board has established a Valuation Committee to administer, implement, and oversee the fair valuation process, and to make fair value decisions when necessary. The Board regularly reviews reports of the Valuation Committee that describe any fair value determinations and methods.

The inputs or methodology used for valuing securities are not an indication of the risk associated with investing in those securities. The following is a summary of the inputs used to value the Fund’s securities as of August 31, 2020:

	Level 1	Level 2	Level 3	Total
Corporate Bonds	\$ —	\$ 14,459,031	\$ —	\$ 14,459,031
Municipal Bonds	—	176,075,122	—	176,075,122
Short-Term Investment	11,054,483	—	—	11,054,483
Total Investments in Securities*	\$11,054,483	\$190,534,153	\$ —	\$201,588,636

* Refer to the Schedule of Investments for further information on the classification of investments.

4. INVESTMENT ADVISORY FEE AND OTHER TRANSACTIONS WITH AFFILIATES

The Trust has an agreement with the Adviser to furnish investment advisory services to the Fund. Pursuant to the Investment Advisory Agreement between the Trust and the Adviser, the Adviser is entitled to receive, on a monthly basis, an annual advisory fee equal to 0.55% of the Fund’s average daily net assets.

The Fund’s Adviser has contractually agreed to reduce its management fees, and may reimburse the Fund for its operating expenses, in order to ensure that Total Annual Fund Operating Expenses (excluding certain expenses such as Rule 12b-1 fees, taxes, leverage/borrowing interest, interest expense, dividends paid on short sales, brokerage commissions and other transactional expenses, acquired fund fees and expenses, or extraordinary expenses) for the Fund do not exceed 0.73% of the Fund’s average daily net assets.

NOTES TO THE FINANCIAL STATEMENTS – CONTINUED AUGUST 31, 2020

Fees waived and expenses reimbursed by the Adviser may be recouped by the Adviser for a period of thirty-six months following the month during which such waiver or reimbursement was made if such recoupment can be achieved without exceeding the expense limit in effect at the time the waiver or reimbursement occurred and at the time of recoupment. The Operating Expenses Limitation Agreement is indefinite in term but cannot be terminated within a year after the effective date of the Fund's prospectus. After that date, the agreement may be terminated at any time upon 60 days' written notice by the Board or the Adviser, with the consent of the Board. Waived fees and reimbursed expenses subject to potential recovery by month of expiration are as follows:

<u>Expiration</u>	<u>Amount</u>
September 2020 – August 2021	\$139,647
September 2021 – August 2022	\$ 89,831
September 2022 – August 2023	\$ 97,749

U.S. Bancorp Fund Services, LLC (the "Administrator"), doing business as U.S. Bank Global Fund Services, acts as the Fund's Administrator, Transfer Agent, and Fund Accountant. U.S. Bank N.A. (the "Custodian") serves as the Custodian to the Fund. The Custodian is an affiliate of the Administrator. The Administrator performs various administrative and accounting services for the Fund. The Administrator prepares various federal and state regulatory filings, reports and returns for the Fund; prepares reports and materials to be supplied to the Trustees; monitors the activities of the Custodian; coordinates the payment of the Fund's expenses and reviews the Fund's expense accruals. The officers of the Trust, including the Chief Compliance Officer, are employees of the Administrator. As compensation for its services, the Administrator is entitled to a monthly fee at an annual rate based upon the average daily net assets of the Fund, subject to annual minimums. Fees paid by the Fund for administration and accounting, transfer agency, custody and compliance services for the year ended August 31, 2020 are disclosed in the Statements of Operations.

Quasar Distributors, LLC ("Quasar") acts as the Fund's principal underwriter in a continuous public offering of the Fund's shares. Effective March 31, 2020, Foreside Financial Group, LLC ("Foreside") acquired Quasar from U.S. Bancorp. As a result of the acquisition, Quasar became a wholly-owned broker-dealer subsidiary of Foreside and is no longer affiliated with U.S. Bancorp. The Board has approved a new Distribution Agreement to enable Quasar to continue serving as the Fund's distributor.

5. CAPITAL SHARE TRANSACTIONS

Transactions in shares of the Fund were as follows:

	<u>Year Ended August 31, 2020</u>	<u>Year Ended August 31, 2019</u>

6. INVESTMENT TRANSACTIONS

The aggregate purchases and sales, excluding short-term investments, by the Fund for the year ended August 31, 2020, were as follows:

U.S. Government Securities		Other Securities	
Purchases	Sales	Purchases	Sales
\$ —	\$ —	\$126,637,667	\$67,863,475

7. FEDERAL TAX INFORMATION

The aggregate gross unrealized appreciation and depreciation of securities held by the Fund and the total cost of securities for federal income tax purposes at August 31, 2020, were as follows:

Aggregate Gross Appreciation	Aggregate Gross Depreciation	Net Depreciation	Federal Income Tax Cost
\$4,086,353	\$(19,951,434)	\$(15,865,081)	\$217,453,717

Any difference between book-basis and tax-basis unrealized appreciation (depreciation) would be attributable primarily to the tax deferral of losses on wash sales. For the year ended August 31, 2020, there were no differences.

At August 31, 2020, components of distributable earnings on a tax-basis were as follows:

Undistributed Tax-Exempt Ordinary Income	Other Accumulated Losses	Unrealized Depreciation	Total Accumulated Losses
\$885,895	\$(3,166,321)	\$(15,865,081)	\$(18,145,507)

As of August 31, 2020, the Fund did not have any capital loss carryovers. A regulated investment company may elect for any taxable year to treat any portion of any qualified late year loss as arising on the first day of the next taxable year. Qualified late year losses are certain capital, and ordinary losses which occur during the portion of the Fund's taxable year subsequent to October 31 and December 31, respectively. For the taxable year ended August 31, 2020, the Fund deferred qualified short-term post-October losses of \$1,644,295 and qualified long-term post-October losses of \$1,447,628.

The tax character of distributions paid for the year ended August 31, 2020, were as follows:

Ordinary Income*	Tax Exempt Income	Long Term Capital Gains	Total
\$1,433,702	\$9,086,965	\$173,236	\$10,693,903

PRINCIPAL STREET HIGH INCOME MUNICIPAL FUND

NOTES TO THE FINANCIAL STATEMENTS – CONTINUED AUGUST 31, 2020

The tax character of distributions paid for the period ended August 31, 2019, were as follows:

Ordinary Income*	Tax Exempt Income	Long Term Capital Gains	Total
\$1,612,916	\$5,770,309	\$ —	\$7,383,225

* For federal income tax purposes, distributions of short-term capital gains are treated as ordinary income distributions.

8. LINE OF CREDIT

The Fund has established an unsecured line of credit (“LOC”) in the amount of \$35,000,000, 15% of gross market value of the Fund, or 33.33% of the fair value of the Fund’s investments, whichever is less. Prior to December 11, 2019, the LOC was limited to the lesser of \$10,000,000, 15% of gross market value of the Fund, or 33.33% of the fair value of the Fund’s investments. The LOC matures unless renewed on July 23, 2021. This LOC is intended to provide short-term financing, if necessary, subject to certain restrictions and covenants in connection with shareholder redemptions and other short-term liquidity needs of the Fund. The LOC is with the Custodian. Interest is charged at the prime rate which was 3.25% as of August 31, 2020. The interest rate during the year was between 3.25-5.25%. The Fund has authorized the Custodian to charge any of the Fund’s accounts for any missed payments. The weighted average interest rate paid on outstanding borrowings for the Fund was 3.71%. For the year ended August 31, 2020, the Fund’s LOC activity was as follows:

LOC Agent	Average Borrowings	Amount Outstanding as of August 31, 2020	Interest Expense	Maximum Borrowing	Date of Maximum Borrowing
U.S. Bank N.A.	\$536,025	\$ —	\$20,448	\$14,146,000	03/19/2020

9. CONTROL OWNERSHIP

The beneficial ownership, either directly or indirectly, of more than 25% of the voting securities of a fund creates a presumption of control of that fund, under Section 2(a)(9) of the Investment Company Act of 1940. As of August 31, 2020, Charles Schwab & Co., Inc., for the benefit of its customers, owned 39.06% of the outstanding shares of the Fund.

Opinion on the Financial Statements

We have audited the accompanying statement of assets and liabilities, including the schedule of investments, of Principal Street High Income Municipal Fund (the “Fund”), a series of Managed Portfolio Series, as of August 31, 2020, and the related statement of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, including the related notes, and the financial highlights for each of the three periods in the period then ended (collectively referred to as the “financial statements”). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Fund as of August 31, 2020, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period then ended, and the financial highlights for each of the three periods in the period then ended, in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

These financial statements are the responsibility of the Fund’s management. Our responsibility is to express an opinion on the Fund’s financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (“PCAOB”) and are required to be independent with respect to the Funds in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement whether due to error or fraud.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of August 31, 2020, by correspondence with the custodian and brokers. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

We have served as the Fund’s auditor since 2017.

PRINCIPAL STREET HIGH INCOME MUNICIPAL FUND

ADDITIONAL INFORMATION (UNAUDITED) – CONTINUED AUGUST 31, 2020

STATEMENT REGARDING THE FUND'S LIQUIDITY RISK MANAGEMENT PROGRAM

Pursuant to Rule 22e-4 under the Investment Company Act of 1940, the Trust, on behalf of the Principal Street High Income Municipal Fund (the "Fund"), has adopted and implemented a written liquidity risk management program (the "Program") that includes policies and procedures reasonably designed to comply with the requirements of Rule 22e-4, including: (i) assessment, management and periodic review of liquidity risk; (ii) classification of portfolio holdings; (iii) establishment of a highly liquid investment minimum ("HLIM"), as applicable; (iv) limitation on illiquid investments; and (v) redemptions in-kind. The Trust's Board of Trustees (the "Board") has approved the designation of Principal Street Partners, LLC ("Principal Street") as the administrator of the Program (the "Program Administrator"). Personnel of Principal Street or its affiliates conduct the day-to-day operation of the Program pursuant to policies and procedures administered by the Program Administrator.

In accordance with Rule 22e-4, the Board reviewed a report prepared by the Program Administrator (the "Report") regarding the operation of the Program and its adequacy and effectiveness of implementation for the period June 1, 2019, through December 31, 2019 (the "Reporting Period"). No significant liquidity events impacting the Fund during the Reporting Period or material changes to the Program were noted in the Report.

Under the Program, Principal Street manages and periodically reviews the Fund's liquidity risk, including consideration of applicable factors specified in Rule 22e-4 and the Program. Liquidity risk is defined as the risk that the Fund could not meet shareholder redemption requests without significant dilution of remaining shareholders' interests in the Fund. In general, this risk was managed during the Reporting Period by monitoring the degree of liquidity of the Fund's investments, limiting the amount of the Fund's illiquid investments, and utilizing various risk management tools and facilities available to the Fund for meeting shareholder redemptions, among other means. In the Report, Principal Street provided its assessment that, based on the information considered in its review, the Program remains reasonably designed to manage the Fund's liquidity risk and the Fund's investment strategy remains appropriate for an open-end fund.

Pursuant to the Program, the Program Administrator oversaw the classification of each of the Fund's portfolio investments as highly liquid, moderately liquid, less liquid or illiquid during the Reporting Period, including in connection with recording investment classifications on Form N-PORT. Principal Street's process of determining the degree of liquidity of the Fund's investments is supported by one or more third-party liquidity assessment vendors.

The Fund qualified as a "primarily highly liquid fund" as defined in the Program during the Reporting Period. Accordingly, the Fund was not required to establish a HLIM or comply with the related Program provisions during the Reporting Period.

During the Reporting Period, the Fund's investments were monitored for compliance with the 15% limitation on illiquid investments pursuant to the Program and in accordance with Rule 22e-4.

The Report noted that the Fund's redemptions in-kind during the Reporting Period were effectuated in accordance with the Trust's Redemption in Kind policy. The Report concluded: (i) the Program was implemented and operated effectively to achieve the goal of assessing and managing the Fund's liquidity risk during the Reporting Period; and (ii) the Fund was able to meet requests for redemption without significant dilution of remaining investors' interests in the Fund during the Reporting Period.

PRINCIPAL STREET HIGH INCOME MUNICIPAL FUND

PRIVACY NOTICE (UNAUDITED)

The Fund collects only relevant information about you that the law allows or requires it to have in order to conduct its business and properly service you. The Fund collects financial and personal information about you (“Personal Information”) directly (e.g., information on account applications and other forms, such as your name, address, and social security number, and information provided to access account information or conduct account transactions online, such as password, account number, e-mail address, and alternate telephone number), and indirectly (e.g., information about your transactions with us, such as transaction amounts, account balance and account holdings).

The Fund does not disclose any non-public personal information about its shareholders or former shareholders other than for everyday business purposes such as to process a transaction, service an account, respond to court orders and legal investigations or as otherwise permitted by law. Third parties that may receive this information include companies that provide transfer agency, technology and administrative services to the Fund, as well as the Fund’s investment adviser who is an affiliate of the Fund. If you maintain a retirement/educational custodial account directly with the Fund, we may also disclose your Personal Information to the custodian for that account for shareholder servicing purposes. The Fund limits access to your Personal Information provided to unaffiliated third parties to information necessary to carry out their assigned responsibilities to the Fund. All shareholder records will be disposed of in accordance with applicable law. The Fund maintains physical, electronic and procedural safeguards to protect your Personal Information and requires its third party service providers with access to such information to treat your Personal Information with the same high degree of confidentiality.

In the event that you hold shares of the Fund through a financial intermediary, including, but not limited to, a broker-dealer, credit union, bank or trust company, the privacy policy of your financial intermediary governs how your non-public personal information is shared with unaffiliated third parties.
